Administrator's Statement

The Board of Nursing for the State of Texas (BON) is responsible for licensing, regulating and monitoring the status of approximately 315,000 nurses in Texas; 225,000 are licensed as registered nurses, and 90,000 are licensed as vocational nurses. In addition, the Board approves over 13,000 Advanced Practice Nurses which includes Nurse Anesthetists, Nurse Midwives, Nurse Practitioners and Clinical Nurse Specialists. The BON also approves and monitors 97 professional and 97 vocational nursing education programs.

The original Nursing Practice Act (NPA), passed in 1909, formally acknowledged professional nursing and marked a milestone in health care for Texans. The first Vocational Nursing Act was passed in 1951. These two boards were merged in February 2004, creating the Texas state agency regulating the largest number of health care providers. In 2009, the Board of Nursing celebrated its 100th anniversary as the agency regulating nursing in the State of Texas.

Environmental Trends

The nursing shortage and increased state funding for nursing education has continued to result in increased enrollment in nursing education programs and increased production of nurses. In the past two years the RN population has grown by approximately 15,229 while the LVN population has grown by 4,742. The growth in the population continues to affect the Board's licensing, customer service, and enforcement programs. Since 2007, interest in opening new nursing programs has escalated at an unprecedented rate. During this time period, the Board has approved 25 new schools of nursing. At this time there are another 15 proposals to open new programs in the Board's offices and staff have received another 14 inquiries which are expected to result in application in the near future. New programs are putting significant strain on existing clinical resources for student learning experiences and faculty resources given the current shortage of nursing faculty. This trend appears likely to continue into the next biennium.

For the past six years, criminal background checks of applicants for initial licensure as well as random auditing of 10% of currently licensed nurses each year have been conducted by the Board. The discovery of criminal history since implementation of the audit of all licensed nurses upon renewal in 2005 has had a tremendous impact on the number of investigations the agency must conduct. The Board continues to experience approximately 8-9% of registered nurses and approximately 17% of vocational nurses have criminal history. The Board performed over 57,000 criminal background checks in FY 09 and has performed over 82,000 in FY 10. The number of jurisdictional complaints has more than doubled since 2005 and increased from 8,812 in FY 07 to 13,365 in FY 09. At the end of the third quarter of FY 10 our complaints have already at the same level of FY 09. It is taking much longer to resolve cases for many reasons. In the aftermath of tort reform, more nurses are represented by attorneys, resulting in delayed complaint resolution and growth in the number of contested cases. Proceedings before the State Office of Administrative Hearings have become more complex with increased time in trial and increased expenses related to court reporting, expert witnesses, witness costs, and transcript cost. The age of cases open over one year has remained over 30% for the past few years because of large backlogs which continue to build with the growing number of complaints. Our eligibility petitions for individuals with impediments to licensure such as criminal history or chemical dependency have grown from 2,141 in FY 07 to 3,584 in FY 09.

New Initiatives and Major Policy Changes

A number of new programs have been implemented in the current biennium. Two years ago, funded by a grant from the National Council of State Boards of Nursing, the Board began conducting criminal background checks on nursing students. This program provided that eligibility for licensure could be determined before students entered

ADMINISTRATOR'S STATEMENT

clinical settings. Employers were beginning to require such checks because students care for their patients; knowing criminal history is viewed as important to assuring patient safety. When the grant funding for this program ended in 2009, the Board continued the program because of demand from the nursing education community. At the present time, 75% of our programs are voluntarily participating in this program but the Board is not specifically funded to operate this program. The Board added a new Jurisprudence Examination in 2008 and developed an online prep course for initial licensure applicants to help them prepare for this examination. During this biennium the Board also added a non-disciplinary Corrective Action program for minor, non-practice related violations of the Nursing Practice Act and conducted a feasibility study for a Deferred Disciplinary Action program designed to dismiss certain complaints after probationary requirements are met. The Board developed new criteria for psychological and substance abuse/dependency evaluations to inform licensure decisions and implemented a new process for emergency suspension of licenses when nurses violate substance abuse/dependency orders.

The increase in the nursing population and the new programs offered by the Board have resulted in increased inquiries from our constituents. In FY 09, the number of telephone calls to our customer service area grew by over 30,000 calls over the FY 08 calls. Total calls to the agency grew from 267,401 in FY 08 to 318,418 calls in FY 09, a growth of over 50,000 calls. Emails to the agency webmaster average over 25,000 per year.

The Board has made many internal procedural and technological changes to address the growing demand for services and create efficiencies. In the customer service area, new staff were transferred to this area to handle telephone and email inquiries. Because of the growing interest in opening new nursing programs, staff began to conduct group orientation sessions quarterly to inform interested parties of the rules and process. The Board delegated approval of certain minor criminal history to staff which expedited the licensure process. All of the Board's applications have been made available online to expedite data entry and save staff time to input data. The agency set up an online licensing chat line available during normal business hours to provide support to applicants and licensees seeking licensure or renewal. In addition, a new feature on the Board's website allows applicants to view the status of their application and determine what required items have been received. The website has been improved by linking disciplinary orders to the verification page, making these orders easier to locate for the public. Frequently Asked Questions have been added to all program areas of the website. In the enforcement area, expedited case reviews are being staffed weekly to resolve the oldest cases. A disciplinary matrix and a guideline for criminal conduct have been developed to create consistency in board actions and to inform the public of the Board's position on appropriate discipline for each violation of the Nurse Practice Act. Staff conducted a "Tour of Texas" visiting 12 sites throughout the State to inform employers and nursing programs of the student criminal background check program. To ensure APRN's are compliant with Board requirements, the agency initiated a random audit of renewal applicants to ensure APRNs remain certified in their respective specialty areas.

The scope of responsibility for the BON continues to grow. The number of nurses seeking licensure in Texas has increased steadily and is expected to continue to increase in response to the nursing shortage and the economic opportunities in Texas. The number of complaints against nurses has grown dramatically during the current biennium. The Board supports Self-Directed/Semi-Independent status as the Boards of Accountancy, Engineering, Architecture, and financial agencies have been granted in order to timely respond to the changing environment. The Board realizes that it is difficult to seek additional resources when the budget shortfall is forecast for the State in the coming biennium. However, the agency raises sufficient revenue through fees to cover additional resources it seeks and is eager to respond to the demand and meet its mission to protect the citizens of our State. The agency is left with limited resources to meet its mission and therefore, submits a budget request designed to support the agency in its licensure, education, and enforcement strategies so that it can successfully accomplish its mission to protect the public. The agency anticipates raising \$3,000,000 in revenue in excess of appropriations, including state indirect costs, and can easily accommodate the budget request with existing revenue.

ADMINISTRATOR'S STATEMENT

Agency name: Texas Board of Nursing

In response to the directives from Governor Perry and the Legislative Budget Board, the Board has complied with the mandate of submitting this Legislative Appropriations Request (LAR) at 5% below the current biennium appropriation and to forecast an additional 10% reduction below the adjusted funding level for fiscal years 2012-2013. The BON will be severely limited by funding at this level for the next biennium. At this funding level, the Board's ability to respond to the growing number of complaints through investigation and adjudication will be severely compromised. Specifically, delays in opening cases, investigating complaints, sending out board orders, and setting contested cases for hearing at SOAH will be experienced. In the operations/licensing area, longer response times to customer phone calls and issuing licenses, longer timelines to mail out licenses and correspondence, and difficulty complying with the Comptroller's requirement for a 3 day turn around for all mail with money are expected results of reduced funding in the licensing strategy. In addition, reduction in funding the peer assistance program will result in the program having to eliminate positions. Ultimately, the peer assistance program's limited ability to accept referrals will lead to returning or referring these cases to the Board, thereby increasing the agency's case load.

Exceptional Items

There are four exceptional items which the Board is requesting. The primary focus of the Board's requests is to maintain the 2010-2011 level of funding and to obtain sufficient staff and resources to handle the growing demand for licensing and enforcement services. The request to retain the base funding and not be subject to the 5% and 10% reductions is key to maintaining our current performance targets which are not at the level that the Board believes are adequate for public protection. We are in need of additional resources in order to improve our licensing and enforcement performance.

We approached the 10% reductions by scaling back on any un-mandated programs, and by reducing our enforcement (legal and investigative) staff. The latter strategy is based on the fact that our increased funding over the past two bienniums has been primarily in the enforcement area. The growth in nursing applicants and the increased number of new nursing programs make reductions in the operations and nursing education areas unfeasible. The effect of reducing the 9 enforcement positions would be increasing our caseloads per investigator and attorney and increasing our timelines for complaint resolution.

Litigation Expenses. The Board is seeking additional funding for litigation expenses. SOAH practices have resulted in proceedings becoming more like District court litigation. It is well documented that being subject to District Court style discovery practices is extremely expensive and time consuming. The lawyers representing nurses recognize the limitations of the agency in terms of manpower and money and routinely force cases to the "court house steps" with the expectation that the agency cannot sustain the cost or time of pursuing disciplinary cases. SOAH costs have risen substantially. Witnesses are seldom allowed to testify by phone when any objection is made by respondents. Respondents through their attorneys routinely object to Staff's motion to submit testimony by phone. As a result, nearly all witnesses must be subpoenaed and reimbursed for travel to Austin to provide testimony. Staff's experts likewise must be paid and reimbursed for travel. In the past the costs for such testimony were minimal. SOAH judges are increasingly requesting agencies pay for transcripts of the proceedings to aide in the Judge's development of a Proposal for Decision. Based on unresolved Formal Charges, staff anticipates an increase of approximately 125 new cases a year at SOAH. The Board needs approximately \$150,000 per year in appropriations to handle the increase in costs of prosecuting the increased number of cases litigated at SOAH. However, these costs may be assessed against the licensee through assessment of costs and fines. Although these funds cannot be expended by the Board, they would positively impact the General Revenue.

New Staff for Examination and Licensing. Additional staff are needed to address: 1.) the growth in licensing applications for examination, endorsement and renewal; 2.) verification of all licenses in any other jurisdiction; 3.) processing of criminal background checks; and 4.) the jurisprudence examination. All of these trends and mandates have not resulted in any increase in staff. The length of time to issue a new license has grown from 45 days in FY 03 to 115 days in FY 09. The Board and its constituents find this time frame unacceptable. In addition, as staff have sought to image paper documents to reduce storage and improve retrieval, the agency finds it does not have

ADMINISTRATOR'S STATEMENT

Agency code: **507**

Agency name: **Texas Board of Nursing**

staff resources to accomplish this goal. Interim use of temporary personnel has assisted with this project but cannot be consistently relied upon in order to avoid exceeding the FTE cap.

New Staff for Enforcement. The Board seeks funding to support the growth in investigations of complaints. The increase in complaints has been addressed above. In spite of additional funding in the past legislative session, the number of disciplinary actions remains at the same level. The increase in complaints and the backlog that has accrued over the past few years have strained the resources of the agency. As the number of investigations assigned to each investigator increases, less time is allocated to each case. Investigative caseloads have grown from 222 in FY 07 to 340 in FY 09. In a survey of other Boards of Nursing in the country, the average caseload per investigator is 105. In FY 09, Texas had the highest caseload in the country. The Board and its constituents find the complaint resolution time unacceptable. In order to reverse the trend of increasing case resolution time, the Board requests an increase in the number of investigators to handle the workload.

Monitoring of Probation. Monitoring has increased dramatically. The Board currently monitors 1,700 nurses under probation for compliance with the terms of their disciplinary orders. Current monitoring investigators are assigned over 800 cases each. Because a violation of a Board order, particularly one that involves drug violations or violations involving patient harm, is given high priority, efficient and timely processing is imperative. It should be noted that statistics indicate that approximately 10% of disciplined nurses recidivate annually. New staff is needed to reduce the case loads of monitoring staff and improve the enforcement process by adding a new attorney to deal with violations of board orders.

New Staff for Approval of Advanced Practice Registered Nurses (APRNs). The volume of new APRN applications increased from 1,401 applications in FY 08 to 1,502 applications in FY 09. Average days to approve applications increased from 37.5 in FY 08 to 49.26 in FY 09. The average days to approve has risen to 81.86 in the 3rd quarter of FY 10. The increase in numbers of applications and the complexity of the applications have lengthened the approval time. Only one professional staff person handles this workload at this time. The APRN Compact is anticipated to be implemented in December 2011 which will increase correspondence and telephone calls.

The Board of Nursing is committed to serving its constituents and more importantly assuring the public is protected through the timely licensing of qualified applicants, the approval of educational programs that will lead to licensure, and the fair, swift investigation and adjudication of complaints. We are requesting adequate resources to meet our mission.

Katherine Thomas, MN, RN
Executive Director

President's Statement

The staff and members of the Texas Board of Nursing are committed to providing exceptional service to the people of Texas and will continue to search for innovative ways to fulfill our mission and to serve our customers at the lowest possible cost. It is our intention to provide exceptional service and be financially disciplined and in the best use of the taxpayers' money while providing exceptional service.

In order to provide services to the citizens of Texas at a level that will offer excellence in public protection, the members of the Board respectfully submit exceptional items for your consideration. After due consideration, the members of the Board have given their unanimous support to the request for the exceptional items as outlined by our Executive Director, Ms. Katherine Thomas. We also concur with the priorities as listed in her statement.

The members of the Board of Nursing want to assure you that we are committed to our mission to protect the public and the responsibility for protecting the public is one that staff and Board members take very seriously. The many initiatives and responsibilities associated with our mission continue to grow. In order to fulfill our mission, it is important that the baseline budget for the Board be maintained throughout the next biennium.

To maintain the high standards of the Board of Nursing, it is essential to have the appropriate number of qualified staff. Most important is the leadership of the agency by the Executive Director. The Board must be able to adequately compensate the Executive Director. The necessity of adequate compensation is twofold: 1) It is important to reward the Executive Director for an excellent performance leading to statewide and national recognition of the Texas Board of Nursing for excellence in regulation; and 2) The individual in this position is required to be a registered nurse with a master's degree in nursing with substantial knowledge in nursing education and practice along with general knowledge in information technology, human resources, and finance. The current director has reached her eligibility for retirement. Should we have to replace her, the Board believes the salary cap is insufficient to attract nurses in the central Texas area with the level of education and experience in leadership positions necessary for this position. It is imperative that the Board adequately compensate the person in this critical position.

Unlike many states, Texas continues to have an increase in the number of new licensees in both initial licensing and advanced practice. This results in an increased workload for licensing, enforcement, and advanced practice staff. Without adequate positions and competitive salaries for staff, it will hamper the Board's efforts to assure safe and competent nursing practice and do so in a timely and efficient manner. Given the shortage of nurses in Texas and nationwide, recruiting and retaining of qualified nursing staff in particular is challenging. To provide high standards of quality service, the quality and number of staff are key.

The Board believes that these requests reflect financial discipline and are requests necessary for providing the fundamental services essential to safe, competent nursing practice and public protection.

Linda Rounds, PhD, RN, FNP

3.A. STRATEGY REQUEST
82nd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

DATE: 8/24/2010
TIME: 1:53:55PM

Agency code: **507** Agency name: **Texas Board of Nursing**

GOAL: 1 Accredited, Examine, and License Nurse Education and Practice
OBJECTIVE: 1 Ensure Minimum Licensure Standards for Applicants
STRATEGY: 1 Operate Efficient System of Nursing Credential Verification

Statewide Goal/Benchmark: 7 2
Service Categories:
Service: 16 Income: A.2 Age: B.3

CODE	DESCRIPTION	Exp 2009	Est 2010	Bud 2011	BL 2012	BL 2013
------	-------------	----------	----------	----------	---------	---------

The Licensing Strategy encompasses the agency's responsibilities to:

1) efficiently license all candidates who fulfill the requirements for becoming a nurse in Texas; (2) approve candidates to take the qualifying national examination for nurses; (3) renew current licenses every two years for qualified individuals; (4) credential Advanced Practice Registered Nurses (APRNs); (5) approve and renew prescriptive authority credentials for qualified APRN's ; (6) verify licensure status to employers and to other states; (7) monitor the nurse's compliance with mandatory continuing education requirements; (8) monitor nurses in default with the Texas Guaranteed Student Loan program; (9) register CRNA's working in unregulated outpatient settings; (10) work with the Attorney General's Office to identify and revoke licenses for those nurses who are in default on child support payments; (11) provide relevant information to licensees and employers on a regular basis through the publication of a newsletter, the Nursing Practice Act, agency rules and regulations, board position statements, and other information; and, (12) obtain FBI fingerprints from new nurse applicants and upon license renewal to complete a criminal history check. The agency also conducts workshops on a regular basis to better inform nurses and their employers of their legal responsibilities under the laws of the State of Texas.

All of the BON's strategies are functions required by the Nursing Practice Act, by the Legislative Budget Board and the Governor's Office of Budget and Planning.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

The BON is responsible for licensing, regulating and monitoring all individuals who are or seek to become nurses in Texas. The increase in license applications continues during fiscal years 2010-2011 with the total number of licensed RNs is expected to grow to approximately 227,000 by fiscal year 2011 and the number of LVNs growing to 91,000 in the same period.

We anticipate continuing to require applicants to submit to a criminal background checkup which includes 10% of all license renewals, up to 20,000 new licensees by endorsement and examination and up to 20,000 new and accepted students who anticipate entering nursing school.

The Texas Board of Nursing anticipates implementing the nurse licensure compact for APRNs in December, 2011.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Accreditation Strategy is one that is required by the Nursing Practice Act, the LBB, and the Governor's Office of Budget and Planning. This strategy encompasses the agency's responsibility to approve and monitor professional and vocational nursing programs. The board works to ensure that each program meet standards necessary to produce graduates who are capable of providing quality and safe health care.

The accreditation program is a cornerstone in assuring that all nurses licensed in Texas are competent to practice safely.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

The total number of approved nursing education programs stands at 194 in 2010. The number of nursing students taking the NCLEX has grown by 7% from FY 2008 to FY 2009. There is an increased demand for the approval of programs that prepare Nurses at all levels. Schools of nursing are expected to increase in number due to the nursing shortage and interest in opening new educational programs. The Texas BON has approved 25 new programs since fiscal year 2007, and we have 15 current proposals pending and 15 additional letters of intent for new proposals. There is an increased demand for approval of distance learning initiatives provided by currently approved programs through telecommunications networks to teach students in remote and/or multiple locations. There is an increase in the number of programs from other states offering didactic and/or clinical portions of the curriculum in Texas. These initiatives require Board staff evaluation.

The Board is adopting revised differentiated entry-level competencies for all nursing programs which will require curriculum changes.

All of these factors contribute to an increasing workload for the Accreditation Strategy.

FULL TIME EQUIVALENT POSITIONS:		31.5	37.0	34.0	34.0	34.0

STRATEGY DESCRIPTION AND JUSTIFICATION:

It is the responsibility of the Board of Nursing to create and administer an effective system to investigate and resolve all complaints against nurses filed with the Board. The Enforcement/Adjudication Strategy is the area under which those responsibilities are carried out. The board received 13,365 complaints in FY 2009 and expects to receive over 15,000 complaints in fiscal year 2010. Each of these complaints must be resolved as quickly as possible within the requirements of state laws and with regard to due process for the individual against whom the complaints are filed.

This is accomplished by using trained agency staff to conduct timely investigations, and then taking appropriate action in those cases where violations of the NPA and/or board rules occurred. The board uses informal settlements and a board-approved disciplinary matrix to the greatest extent possible to resolve cases and administer appropriate discipline through informal conferences and agreed orders. The board refers cases to the State Office of Administrative Hearings (SOAH) only when it has been unable to resolve cases informally.

It also contracts with the Texas Nurses Foundation to administer a peer assistance program for nurses (see next strategy). The peer assistance program is expected to monitor more than 700 nurses during the 2010-2011 biennium who would otherwise be referred to the BON for investigation of complaints.

The Enforcement/Adjudication Strategy is a key component in the agency's mission of protecting the people of Texas from unsafe nurses.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

It is the responsibility of the BON to investigate and resolve all complaints it receives regarding nurses. The number of complaints received each year is dependent upon several factors, the most important of which is simply the total number of nurses who are licensed. In fiscal year 2005, there were 264,450 nurses licensed to practice in Texas. As of May 31, 2010, the number has increased to 314,734, a 16% increase. The number of complaints received will grow as well, from 6,342 in fiscal year 2005 to approximately 15,000 by the end of fiscal year 2010 due to ongoing FBI background checks. This increased number of complaints translates into an increased caseload per investigator which currently stands at 416.

FULL TIME EQUIVALENT POSITIONS:

STRATEGY DESCRIPTION AND JUSTIFICATION:

The purpose of the Peer Assistance Strategy is to protect the people of Texas from unsafe nurses by providing a program for nurses with chemical abuse or dependency and certain mental health diagnosis to receive treatment and monitoring for impairment and return to work as safe, competent nurses.

The Board of Nursing (BON) has contracted with the Texas Nurses Foundation to operate the Texas Peer Assistance Program for Nurses (TPAPN). The program has been in place since the mid-1980's. The program helps to protect the public from unsafe nurses and helps reduce the agency's investigations workload by diverting nurses into the peer assistance program. Otherwise, each of those nurses would likely be an additional complaint reported to the BON. The program provides monitoring of impaired nurses to ensure public protection.

3.A. STRATEGY REQUEST
82nd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

DATE: 8/24/2010
TIME: 1:53:55PM

Agency code: **507** Agency name: **Texas Board of Nursing**

GOAL: 2 Protect Public and Enforce Nursing Practice Act

Statewide Goal/Benchmark: 7 0

OBJECTIVE: 1 Investigate and Resolve Complaints about Violations of the Act

Service Categories:

STRATEGY: 2 Identify, Refer and Assist Those Nurses Whose Practice Is Impaired.

Service: 16 Income: A.2 Age: B.3

CODE	DESCRIPTION	Exp 2009	Est 2010	Bud 2011	BL 2012	BL 2013
------	-------------	----------	----------	----------	---------	---------

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

The number of nurses referred to TPAPN has leveled off over the last biennium and it is anticipated that by end of the 2010-2011 biennium, 700 nurses will be enrolled. Administered by Texas Nurses Foundation, the program is under contract with the BON. As such, the administration of the program itself is not a workload issue for the BON. However, nurses who enroll in the peer assistance program are not reported to the board as long as they remain in compliance with the requirements of the program. Therefore, TPAPN's existence has the effect of reducing the number of complaints that are reported to the BON each year. Without the peer assistance program, the board would need to hire at least two (2) additional investigation department staff to handle the increase in complaints.

------	-------------	-----------	-----------

Item Name: Restoration of the 5% reduction in the baseline funding from fiscal years 2010 and 2011.

Item Priority: 13

Includes Funding for the Following Strategy or Strategies:

01-01-01	Operate Efficient System of Nursing Credential Verification
01-01-02	TexasOnline. Estimated and Nontransferable
01-02-01	Accredit Programs That Include Essential Competencies Curricula
02-01-01	Administer System of Enforcement and Adjudication
02-01-02	Identify, Refer and Assist Those Nurses Whose Practice Is Impaired.
03-01-01	Indirect Administration for Licensing Programs
03-01-02	Indirect Administration for Enforcement and Adjudication Programs
04-01-01	Contingency Regulatory Response

OBJECTS OF EXPENSE:

1001	SALARIES AND WAGES	199,020	199,019
2001	PROFESSIONAL FEES AND SERVICES	28,250	43,250
2003	CONSUMABLE SUPPLIES	5,000	5,000
2005	TRAVEL	5,000	5,000
2009	OTHER OPERATING EXPENSE	91,583	91,583
TOTAL, OBJECT OF EXPENSE		\$328,853	\$343,852

METHOD OF FINANCING:

1	General Revenue Fund	328,853	343,852
TOTAL, METHOD OF FINANCING		\$328,853	\$343,852

DESCRIPTION / JUSTIFICATION:

The Texas BON will reduced general revenue funds by the 5% required by delaying hiring which resulted in the slowing down the number of criminal background checks completed on students, new licenses and renewals and extending timelines on processing examination, endorsement and advanced practice applications The trickle down effect has resulted in fewer disciplinary actions and longer timeframe to license applicants. With the restoration of the 5% reduction, the Texas BON would be back on track with the original fiscal year 2010 and 2011 enforcement and licensing outcomes. At this time, we are 7% behind fiscal year 2009 disciplinary actions and since fiscal year 2008 have added an additional 22 days it takes to license a new LVN and RN.

CODE DESCRIPTION

Excp 2012

Excp 2013

The effect of the 5% reduction has been a delay in hiring staff in open positions, reduction in funding for TPAPN, Texas Online, Texas Nursing Workforce Data Center and thus the time frames to investigate a case, license an applicant and review a new school proposal have increased.

OBJECTS OF EXPENSE:

2001	PROFESSIONAL FEES AND SERVICES	100,000	100,000
2009	OTHER OPERATING EXPENSE	50,000	50,000
TOTAL, OBJECT OF EXPENSE		\$150,000	\$150,000

METHOD OF FINANCING:

1	General Revenue Fund	150,000	150,000
TOTAL, METHOD OF FINANCING		\$150,000	\$150,000

DESCRIPTION / JUSTIFICATION:

Formal contested case proceedings have become more complex and SOAH practices tend to lengthen the time it takes to resolve disciplinary matters. Historically, administrative proceedings have utilized more informal evidence rules. The Administrative Procedure Act requires that rules of evidence be applied but allows for admission of relevant evidence if necessary to ascertain facts not reasonably susceptible of proof under those rules; not precluded by statute; and of a type on which a reasonably prudent person commonly relies in the conduct of the person's affairs (TEX. GOV'T CODE ANN. Sec. 2001.081.) SOAH makes few or no exceptions over evidentiary objections under section 2001.081. Similarly, based on enabling legislation, SOAH will not recognize procedural rules or practices of the Board which would force cooperation with investigations before matters are set at SOAH. The Board is therefore unable to require admissions for uncontested facts prior to requesting a hearing at SOAH. SOAH's practices have resulted in proceedings becoming more like District Court litigation. It is well documented that being subject to District Court style discovery practices is extremely expensive and time consuming. The defense lawyers recognize the limitations of the agency in terms of man power and money and routinely force cases to the "court house steps" with the expectation that the agency cannot sustain the cost or time in pursuing disciplinary cases.

EXTERNAL/INTERNAL FACTORS:

4.A. EXCEPTIONAL ITEM REQUEST SCHEDULE
82nd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

DATE: 8/24/2010
TIME: 1:55:15PM

Agency code: 507

Agency name:

Texas Board of Nursing

CODE	DESCRIPTION	Excp 2012	Excp 2013
	SOAH costs for the agency have steadily risen. Witnesses are seldom allowed to testify by phone when any objection is made by Respondents. Respondents through their attorneys routinely object to Staff's motion to submit testimony by phone. As a result, nearly all witnesses must be subpoenaed and reimbursed for travel to Austin for testimony. Staff's experts must now be paid for travel time, expenses and testimony, when before the costs for telephonic testimony was minimal. Delays in contested case proceedings also increase when witnesses, experts, attorneys and the judges must coordinate to be in Austin at the same time. Staff estimates that each contested case proceeding litigated at SOAH averages about \$1,200 to \$5,000 in additional costs. Based on the unresolved Formal Charges, Staff anticipates an increase of approximately 125 new cases a year at SOAH. A recent trend is SOAH requiring agencies to purchase written transcripts of hearings to help the judges in writing their Proposals for Decisions. This adds approximately \$1,400 to the costs of a SOAH hearing.		

The Board needs approximately \$150,000 in appropriations to handle the increase costs of prosecuting the increase in the number of cases litigated at the State Office of Administrative Hearings. However, these costs may be assessed against the licensee through assessment of costs and fines against those who violate the Nurse Practice Act.

CODE	DESCRIPTION	Excp 2012	Excp 2013
	Item Name: Increase salary of Executive Director as recommended in the Classification Study of Exempt Positions by the Office of the State Auditor.		
	Item Priority: 15		
	Includes Funding for the Following Strategy or Strategies:		
	01-01-01 Operate Efficient System of Nursing Credential Verification		
	02-01-01 Administer System of Enforcement and Adjudication		

OBJECTS OF EXPENSE:

1001	SALARIES AND WAGES	30,181	30,181
	TOTAL, OBJECT OF EXPENSE	\$30,181	\$30,181

METHOD OF FINANCING:

1	General Revenue Fund	30,181	30,181
	TOTAL, METHOD OF FINANCING	\$30,181	\$30,181

DESCRIPTION / JUSTIFICATION:

As our agency works within budget and legislative constraints, we continue to struggle with limitations that, if eased, would enhance our agency's ability to recruit and retain staff. A main priority of the Board is to request that the salary of the Executive Director be set by the Board itself within the salary group set by the Legislature. The Executive Director is accountable to the Board within a governance policy and the Board has no means to reward the Executive Director based on performance. With a nursing shortage, the retention and recruitment of nurse executive such as the executive director is becoming acute. The reason for a salary increase for the agency executive director is twofold: 1) to reward excellent job performance of the current executive director. The current salary is not competitive with like size regulatory agencies and not competitive at the low end of salaries of chief nursing executives in the central Texas area; and 2) the incumbent in this position is required to be a registered nurse with a master's degree in nursing and have nursing knowledge in education, nursing practice along with general knowledge of information technology, human resources and finance.

EXTERNAL/INTERNAL FACTORS:

The current executive director has reached her retirement eligibility and if for any reason, we lost the current executive director, we would be required to compete with the private sector for a chief nursing officer in order to have a qualified pool of applicants. The low to high salary range for this group in the central Texas area is from \$100,626 to \$143,332 per year. In the study of exempt positions by the State Auditor's Office in July, 2010, the report indicates that the salary for the executive director was 25% below the market. She received 3% increase in fiscal year 2010 which is 28% below nursing salaries in the private sector, where we would have to compete to find a like caliber person. Our compensation analysis shows that the market rate for a comparable position in the private section would be \$128,524. Furthermore, from a comparable state perspective, the Texas Board of Nursing's budget and FTE's are comparable to the Texas Board of Pharmacy and the Texas Real Estate Commission of which both executive director's are placed in the Group 4 category.

FULL-TIME EQUIVALENT POSITIONS (FTE):

	11.00	11.00
--	-------	-------

DESCRIPTION / JUSTIFICATION:

The Texas Board of Nursing (BON) has been experiencing exponential growth in the number of licensees by exam, endorsement and renewals and at the same time the nursing practice act has changed significantly by adding additional requirements such as criminal background checks, verification of all licenses prior to endorsement and a mandatory jurisprudence exam.

The agency's enforcement workload continues to steadily and rapidly increase and must be addressed in order for the Board to maintain its mission to protect the public and timely resolve its complaints. There are several reasons why the Board's enforcement cases will require more resources for the agency to meet its mission effectively and timely: (1) Complaints are increasing over 20% annually, (2) Investigations per Investigator is significantly increasing, (3) Formal charges statistics and unresolved complaints statistics are increasing, (4) Attorney representation of respondents continue to increase significantly, and (5) The Board's monitoring of probation has increased dramatically. In the past few years, the agency has experienced a consistently high number of applications for initial licensure or RNs and LVNs experiencing a 7% increase from fiscal year 2008 to fiscal year 2009, creating a backlog and a delay in processing applications.

APRN applications have likewise increased which require a high level of understanding of APRN practice and education in the State of Texas and within the United States. The average days to approve APRN applications went from 37.51 days in FY 2008 to 49.26 days in FY 2009. Third quarter data for FY 2010 reflects an average of 81.86 days for approval.

EXTERNAL/INTERNAL FACTORS:

The primary mission of the BON is to ensure that those practicing nursing in Texas are competent and do not pose a risk to Texas citizens. The Legislature has made criminal background checks a priority by authorizing funds to complete this task on licensed nurses. The outcome of this project has caused a significant rise in new cases and investigations. The complexity of the Board's disciplinary cases is increasing due to changes in SOAH practices. Also, in the past bienniums, the Texas BON has limited its request for licensing administrative staff which has not kept pace with the increased numbers of licenses by examination and endorsement. The additional staff, if received, will allow the Texas BON to keep pace with the current increase in cases and applicants and allow us to meet current legislative performance outcomes.

OPERATING COSTS DESCRIPTION AND JUSTIFICATION:

The Board of Nursing relies on automated information systems to deliver services and support it's mission, which is to protect and promote the welfare of the people of Texas by the regulation of the practice of vocational and professional nursing. In order to maintain the current level of operations and in anticipation of new services the board adheres to its technology refresh schedule for computer systems. Rapid advancements in technology and the increasing demands of software processes and functions require replacement of PC's every four years. In replacing these systems our staff continue to experience a stable working environment with less idle time, thereby increasing response to customer's requests.

B. Assessment of Fiscal Year 2008 - 2009 Efforts to Meet HUB Procurement Goals**Attainment:**

The Texas Board of Nursing(BON)set the agency HUB goal at 20% since almost half of your HUB funding includes a single source contract for a peer assistance program. The BON exceeded our goal in commodities and did not attain our goal in professional and other services. The agency still maintained consistent strategies to include HUB's in our procurement process. Although we have not met the overall HUB goal of 20%, we are close to the goal and will continue to review strategies to increase HUB participation.

Applicability:

Heavy construction, building construction and special trades were not applicable to the BON in fiscal years 2008 and 2009.

Factors Affecting Attainment:

As mentioned above, over half of our available spending includes a single source contract for peer assistance which puts us in a difficult position to obtain our HUB goal. Also, we have one large contract for the agency newsletter which is competitively bid. Since a HUB did not receive the bid, it is even harder to obtain our goal of 20%.

"Good-Faith" Efforts:

An agency strategy is to include three HUBs in every delegated bidding process which increases the chances of HUB participation. This has been successful in certain purchasing categories.

Agency code: 507 Agency name: Texas Board of Nursing

Item Priority and Name/ Method of Financing	REVENUE LOSS			REDUCTION AMOUNT			TARGET
	2012	2013	Biennial Total	2012	2013	Biennial Total	

1 Criminal Background Checks

Category: Programs - Grant/Loan/Pass-through Reductions

Item Comment: The Texas Board of Nursing collects fees from Licensees by renewal, endorsement and examination to cover criminal history checks which are a "pass-through" to the Texas Department of Public Safety. Within the general revenue account, the Texas Board of Nursing can collect and "pass-through" \$928,225 each fiscal year to the Texas Department of Public Safety for criminal history checks. The Texas Board of Nursing is currently requiring 10% of all renewals to submit to a criminal background check. At this rate, the Texas BON will complete this project by the by Fall, 2015. If we are required to reduce this budget item, the Texas Board of Nursing will decrease the percentage of criminal history checks to 5% upon monthly renewals and complete the project by the end of fiscal year 2017. This will delay the completion of the original projectd date by two years.

Strategy: 2-1-1 Administer System of Enforcement and Adjudication

General Revenue Funds

1 General Revenue Fund	\$0	\$0	\$0	\$90,000	\$90,000	\$180,000
General Revenue Funds Total	\$0	\$0	\$0	\$90,000	\$90,000	\$180,000
Item Total	\$0	\$0	\$0	\$90,000	\$90,000	\$180,000

FTE Reductions (From FY 2012 and FY 2013 Base Request)

2 Peer Assistance Funding

Category: Programs - Grant/Loan/Pass-through Reductions

Item Comment: The Texas Peer Assistance Program for Nurses (TPAPN) funds are a "pass-through" to the program to assist LVNs and RNs with chemical abuse or dependency and certain mental illness issues. If we reduce the funding for this program, they would be unable to increase their intake of cases and thus more nurses would be reported to the Texas Board of Nursing and increase the caseload of agency investigators.

Strategy: 2-1-2 Identify, Refer and Assist Those Nurses Whose Practice Is Impaired.

General Revenue Funds

1 General Revenue Fund	\$0	\$0	\$0	\$70,000	\$70,000	\$140,000
General Revenue Funds Total	\$0	\$0	\$0	\$70,000	\$70,000	\$140,000
Item Total	\$0	\$0	\$0	\$70,000	\$70,000	\$140,000

6.I 10 PERCENT BIENNIAL BASE REDUCTION OPTIONS
82nd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

Date: 8/24/2010
Time: 1:58:22PM

Agency code: 507 Agency name: Texas Board of Nursing

Item Priority and Name/ Method of Financing	REVENUE LOSS			REDUCTION AMOUNT			TARGET
	2012	2013	Biennial Total	2012	2013	Biennial Total	

FTE Reductions (From FY 2012 and FY 2013 Base Request)

3 Texas Online

Category: Programs - Grant/Loan/Pass-through Reductions

Item Comment: This item has the least effect on both the Texas Board of Nursing and Texas Online. The Texas Board of Nursing is required to raise \$325,000 per fiscal year to "pass-through" to Texas Online. The Texas Board of Nursing will exceed this requirement by an additional \$115,000 each fiscal year. The Texas Board of Nursing will be able to "pass-through" the required funding to Texas Online and still provide additional revenue even with this reduction.

Strategy: 1-1-2 TexasOnline. Estimated and Nontransferable

General Revenue Funds

1 General Revenue Fund	\$0	\$0	\$0	\$32,500	\$32,500	\$65,000
General Revenue Funds Total	\$0	\$0	\$0	\$32,500	\$32,500	\$65,000
Item Total	\$0	\$0	\$0	\$32,500	\$32,500	\$65,000

FTE Reductions (From FY 2012 and FY 2013 Base Request)

4 Texas Nursing Workforce Data Center

Category: Programs - Grant/Loan/Pass-through Reductions

Item Comment: The Texas Board of Nursing collects fees from Licensees by renewal to "pass-through" to the Texas Nursing Workforce Data Center. Since the Texas Nursing Workforce Data Center receives funding from other sources, this reduction would effect their operations but not their core function.

Strategy: 1-1-1 Operate Efficient System of Nursing Credential Verification

General Revenue Funds

1 General Revenue Fund	\$0	\$0	\$0	\$36,500	\$36,500	\$73,000
General Revenue Funds Total	\$0	\$0	\$0	\$36,500	\$36,500	\$73,000

8 Nine Staff Positions

Category: Administrative - FTEs / Layoffs

6.I 10 PERCENT BIENNIAL BASE REDUCTION OPTIONS
82nd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

Date: 8/24/2010
Time: 1:58:22PM

Agency code: 507 Agency name: Texas Board of Nursing

	REVENUE LOSS			REDUCTION AMOUNT			TARGET
Item Priority and Name/ Method of Financing	2012	2013	Biennial Total	2012	2013	Biennial Total	
Item Comment: The majority of new staff that the Texas BON has been allocated in the past two bienniums have been legal and investigative staff to process the increase in complaints emanating from criminal background checks. Due to the volume of new nurses by examination and renewal and the increase in the number of new nursing school proposals, the Texas BON could not reduce administrative staff in these areas and would have to reduce the number of legal and enforcement staff to meet the 10% reduction. This would be mean increasing the time line to investigate and adjudicate cases. We currently have 39 legal and enforcement positions. If we decreased this group by 9, then the average caseload would increase and thus the average time for complaint resolution would increase. We would have to reassign cases to other staff investigators thus increasing the caseload per investigator from the current 416 to 450 and increase the the days to resolve a complaint from the current 188 days to 207 days.							
Strategy: 2-1-1 Administer System of Enforcement and Adjudication							
<u>General Revenue Funds</u>
